Independent Study- Cities of Ptolemaic Egypt

Description

This course will concentrate on the major cities of Ptolemaic Egypt, both inside and outside the borders of Egypt. The initial focus of the course will be on the three major Greek cities of Egypt (Alexandria, Ptolemais and Naukratis). It will then branch out to a handful of predominantly Egyptian cities (Memphis, Kerkeosiris and the Red Sea ports) and finally to the foreign areas intermittently controlled by the Ptolemies (Cyrene and the cities of Cyprus and Asia Minor). It will consider the architectural remains, artifacts, and literature specific to these areas.
