

## **Auditory Cognitive Neuroscience Society 2009 Schedule**

All times are approximate. Listed next to each author is a general topic area and not necessarily the title of the presentation.

### **Friday, January 9, 2009**

9:30-9:45 Andrew Lotto (University of Arizona) – Welcome & Introduction

#### ***Morning Session: The Sound of Music – Without the Nazis***

9:45-10:15 Brad Story (University of Arizona) – Acoustics of Singing

10:15-11:00 Michael Dorman (Arizona State University) – Music Perception by Listeners with Cochlear Implants

11:00-11:30 Poster Presentations in Hallway

11:30-12:00 Andrew Lotto (University of Arizona) – Rhythm in Speech

12:00-1:30 LUNCH

#### ***Afternoon Session: Lessons From A Lesser Sense - Vision***

1:30-1:45 Bill Yost (Arizona State University) – Sound Source Perception

1:45-2:30 Greg Hickok (University of California – Irvine) – Function in the Planum Temporale

2:30-3:00 Bob Lutfi (University of Wisconsin) – Sound Source Identification by Compressive Sensing

3:00-3:30 BREAK

3:30-4:00 Tom Christensen (University of Arizona) – Comparing Auditory and Visual Attention Networks

4:00-4:30 Arty Samuel (SUNY - Stony Brook) – Change “Deafness”

4:30-4:45 Andrew Lotto (University of Arizona) – The (Auditory) Object of My Derision

4:45-5:00 General Discussion

### **Saturday, January 10, 2009**

#### ***Morning Session: Foundations of Speech Communication by Children***

9:30-10:00 Lynne Werner (University of Washington) – Infant Auditory Development

10:00-10:30 Suzanne Curtin (University of Calgary) – Lexical/Representational Development in Children

10:30-11:00 BREAK

11:00-11:30 Edwin Maas (University of Arizona) – Speech Production Planning in Children

11:30-12:00 Andrea Pittman (Arizona State University) – Children, Hearing Loss, & Communication

12:00-1:30 LUNCH

***Afternoon Session: Processes, Representations and Constraints in Auditory Adaptation/Learning***

1:30-2:00 Bill Yost (Arizona State University) – Neural Plasticity and the Auditory System

2:00-2:30 Lori Holt (Carnegie Mellon University) – Endogenous Versus Exogenous Feedback in Perceptual Learning

2:30-3:00 Arty Samuel (SUNY-Stony Brook) – Perceptual Adaptation to Variability in Speech

3:00-3:30 BREAK

3:30-4:00 Andrew Lotto (University of Arizona) – Perceptual Adaptation to Speech: Stubborn Phonemes

4:00-4:30 Julie Liss (Arizona State University) – Big Questions for Perceptual Learning

4:30-5:00 General Discussion
