* **Eval Code:** I=Individual evaluation M=TCE packets unreturned or data problems A=TCE packets just arrived
 0=Online valuation T/I=Team-taught course, instructors evaluated as individuals

** **% Resp:** Results for sections with low response percentages are likely to be biased (such sections are **ed). OIA recommends not using these results in P&T decisions.
 The response percentage should be above 50% for all classes and higher for small classes. A rubric for evaluating response rates may be found at <http://aer.arizona.edu>

*** **Comp Group:** The comparison group consists of courses taught during the past six years (fall and spring semesters only) enrolling five or more students at the same level in the same subject area (determined by course subject prefix).
