We propose that the University of Arizona host a school-wide gathering to promote school spirit and campus involvement among undergraduate students.
Why Propose?

- Current low football/athletic student spirit
- Low school retention rate
- Lack of Community
UA MADNESS! Goal:

- The goal of this function is to bring U of A students, mainly freshman and sophomores, on campus together to partake in a spirited, fun-filled event on the U of A mall before the first home football game of the year.
Goals Continued...

- To allow student interaction outside of the classroom.
- To provide student support and spirit for the Football team and University athletic programs.
- To build a better sense of community among freshman and sophomore students.
- Through UA Madness we would hope to increase the retention rate by creating a more cohesive environment.
